

3rd Grade Science Space and Technology!

August - September

Hello! My name is Miss. Mujica.
Welcome to Space and Technology! This
year is going to be so much fun and
filled with so many interesting and
exciting activities.

This marking period we will be talking
about different patterns in the sky that
we see in our everyday lives.

We will be learning about the **sun** and
the **moon** and their characteristics. We
will also be learning about the earth
and its **axis** and its **revolution**. We will
talk about the moon and the **lunar
eclipse, lunar cycle** and different **star
patterns** we can see everyday.
