We are Seedfolks!

After enjoying the 13 lessons from the book *Seedfolks* we are excited to put our own planting skills to practice in our garden on school grounds in front of Soporte Academico. We are also proud of creating our own collection of our own stories with our own lessons learned compiled as a class.

PSAT OCTOBER 17TH

We will continue to build our vocabulary and complete practice exercises to prepare for the PSAT test that will be given during class in October. This is done in preparation for the SAT test taken in 11th and or 12th grade.
