

# Physical Science

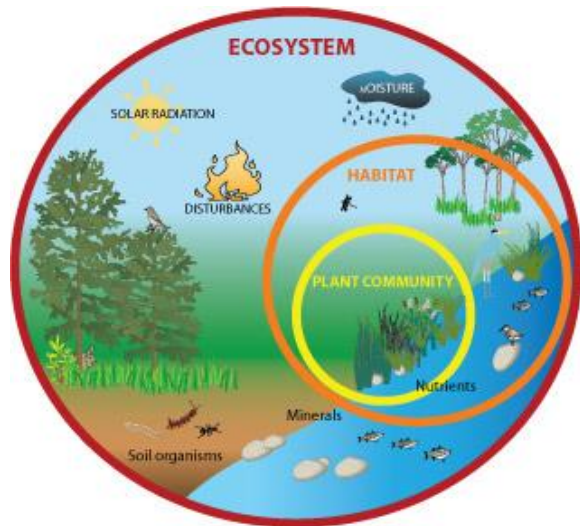

## 4<sup>th</sup> Grade Science

November 2012

Hello again! Let's start off this third marking period with a roar! This past marking period we learned about body systems and how they help our body function. This marking period we will be learning about different animals.

We will be learning how to classify animals and their characteristics. We will be playing with a virtual insectarium and look at different insects. We will also be creating different habitats for animals with an interactive computer activity. We will be learning about different mammals, reptiles, birds, amphibians and fish. We will also talk about different ecosystems.

Elementary Principal: Soraya Gonzalez  
Science Coordinator: Sydney Junion
